Subject: RE: Ames Warehouse Fire Public Health Messaging
Attachments: Press Release - IEI Fire OCT 2017.pdf

Thank you for sharing the press release and public information, Carrie! I am sharing this with the others I have been working with that may also be interested in this now. Extremely helpful.

We do not have another call set up at the moment, but I could set one up to discuss among ourselves the air information available at this point if that would be helpful? Debbie, Chris, Jim – you are on scene and the busiest is this something that would be helpful? If so, what would work best for you? Something like 3, 4, or 5 pm? ATSDR is working on an email summary for the data through yesterday right now; I know Deb you just sent us additional information, which we will continue to look at as well but won't be in today's summary.

Lora

Subject: RE: Parkersburg Ames Warehouse - air analytical not loaded yet

Lora and Deborah,

Good afternoon. We wanted to check in with both of you to see if there were any coordination calls scheduled today with ATSDR/US EPA to discuss public health impacts/messages and if so, would it be possible for the Ohio Department of Health to listen in to keep informed of regional activities.

Thanks,
Rebecca
